

PLEASE,
NO JUNK MAIL
THANK YOU.

The Enterprise Class Anti-spam Solution for Business.

Introduction.

C-Mail is an Enterprise Class Anti-spam solution developed with Small to medium enterprises in mind. It offers the ultimate protection against spam mail, malware, viruses, phishing and any other unwanted content that tries to access your network via your inbox.

If you are fed up with "off the shelf" Anti-spam programmes that block genuine emails and leave you drowning in a sea of malicious spam mail, then C-mail is the perfect solution.

The C-mail Anti-spam Solution is a managed service that requires no hardware purchases, no installation, no maintenance and no ongoing upgrades. C-mail can also be deployed to new users on any network at the touch of a button.

Prevention is Always Better Than The Cure.

Overview.

The C-Mail Anti-spam system is designed to remove viruses and spam emails before they actually enter your network. Unlike other anti-spam systems, C-Mail won't send suspected spam to a "black hole" never be seen again. Instead, C-mail gives you the power to Allow, deny or blacklist emails directly from your desktop.

What protection can I expect from C-mail?

- The ultimate Spam defense using multiple engines.
- 99% of spam blocked.
- Less than 0.03% of false positives.
- Multiple domains support.
- Virus definitions updated every 5 minutes.

What activity does C-mail monitor?

C-mail monitors Virus messages, Spam messages, invalid recipients, clean messages and black list rejection.

Integrate C-mail with Outlook.

C-Mail is one of the first Enterprise class Anti-spam solutions designed to integrate with Microsoft Outlook. Allow individual users or Administrators to check spam filters with ease within the Outlook interface.

Detailed activity reporting.

With C-mail, you will be able to view detailed statistics of email activity for individual user accounts. Customised reports can be created and scheduled reports can be emailed to end users and administrators in a PDF format.

Cross platform compatible.

C-Mail has been designed to be cross platform compatible. It will work perfectly with Microsoft Exchange, Send mail, Lotus Notes, Lotus Domino, Postfix, Qmail, Lotus Domino, Scalix, Mailenable, Ipswitch, Zimbra, MDeamon, Novell Groupwise and many other email platforms.

Free 30 day trial.

Contact us today and arrange for a free 30 day no-obligation trial of C-mail.
