

## Microsoft Exchange Solutions Directly From The Cloud.

### Introduction.

Microsoft Exchange Server is the leading platform for business email communication. Recognised IT Professionals regard Microsoft Exchange as the most reliable, flexible and secure Email platform in the world.

Many businesses are missing out on the benefits of a business class email system because they cannot afford the costs of owning and maintaining a Microsoft Email Server in-house. But now there is an affordable alternative...

Hosted Exchange has all the features of a traditional in-house Email Server without the overheads. No initial capital investment is required, there are no ongoing maintenance costs and for a small monthly fee, Our IT Department can provide your business with the ultimate cost effective, enterprise class email solution.

# The Future of Email Communication For Business.

## How does Hosted Exchange work?

The concept of Hosted Exchange simple. Your Email and data are stored on our fast, secure cloud network which provides all the functionality of a traditional in-house Exchange server without the cost. Fast connectivity together with regular backups and redundancy avoid any potential loss of business critical data. You can access your email, calendars and contacts through the following means;

- Microsoft Outlook/Entourage.
- Outlook Web Access (OWA).
- Blackberry device.
- Windows mobile device.

## The benefits of using the Hosted Exchange Platform;

- No upfront investment or ongoing maintenance costs.
- No need to purchase in-house email server hardware or software licencing.
- A FREE copy of Microsoft Outlook or Entourage provided for every user.

## Hosted Exchange Functionality in a nutshell;

- Share public folders and contacts.
- Calendar sharing.
- Out of office notifications.
- 1GB mailbox storage per user. (Additional storage available upon request).
- 24/7 Outlook web access
- Windows Mobile/Blackberry support.
- Automated data backup.
- Anti-virus and spam filtering as standard.

## Save money by moving over to a Hosted Exchange Solution.

Our IT Department's Hosted Exchange Solution provides enterprise-class reliability, performance and value all for a small monthly per user fee. NO upfront investment is required and there are no ongoing maintenance costs.
