

THE IT SUPPORT SERVICES PROVIDER CHECKLIST.

We've got your Due Diligence covered.

Finding the right IT Support Company can prove to be a difficult task, especially if you are unsure of the right questions to ask. Because of this, we have put together the following checklist to make your life a little bit easier throughout the due diligence process.

The following list of questions should be asked in order to identify the best IT support services provider for your business requirements. If you are unsure about why you are asking any of the following questions then don't hesitate to call us on **020 8501 7676** for assistance.

Contents.

1. Telephone and day-to-day IT support services.
2. Network monitoring and proactive maintenance.
3. Security.
4. Service contracts.
5. Quality of service.
6. Infrastructure.
7. Strategy and consultancy.

1. Telephone and remote day-to-day IT Support services.

Will your team endeavour to assist us with **ANY** IT related problems (including problems with 3rd party applications) without us incurring additional charges?

In the event of an emergency, will an engineer start to look at the issue **immediately** in order to minimise downtime and maintain business continuity?

Is your service desk located in London, allowing you to provide rapid onsite support assistance when required?

Will an engineer visit our premises **within 24 hours** if an issue cannot be fixed remotely?

Does your support package include **unrestricted onsite support visits** with no hidden charges?

Will an engineer **liaise directly with the manufacturer** to resolve any issues with faulty hardware that is still under warranty?

Do you provide **support for mobile devices**, including tablets and smartphones?

Do you have a **fully documented escalations procedure** in place if we are unhappy with the level of service provided?

Does your London service desk provide **24 hour IT support** as a service?
